DETAILED ACTION

Response to Amendment

1. Examiner acknowledges Applicant's response filed 5 March 2009 containing amendments to the claims and remarks.
2. Claims 71, 73-77, and 80-89 are pending.
3. Examiner acknowledges that Applicant's amendment to claim 89 is sufficient to overcome the previous objection. Likewise, Applicant's amendment to claim 88 is sufficient to overcome the previous rejection under 35 U.S.C. 112, second paragraph.
4. Claims 71, 73-77, and 80-89 are allowed in view of Applicant's amendments to the claims.

Allowable Subject Matter

5. Claims 71, 73-77, and 80-89 are allowed for the reasons of record first indicated in the Office Action mailed 7 January 2009. For convenience and clarity of the record, Examiner's statement of reasons for allowance is repeated below.
6. The following is Examiner's statement of reasons for allowance:

With respect to claim 71 (and the respective dependent claims), none of the prior art references previously cited discloses or suggests a process for treating a diluted tailings component comprising, in relevant part, "subjecting the whole solvent diluted tailings component to a solvent recovery separation by pressure moderation."

With respect to claim 86 (and the respective dependent claims) and claim 89, none of the prior art references previously cited discloses or suggests a process for treating a diluted tailings component comprising, in relevant part, "subjecting at least most of the diluted tailings component to a solvent recovery separation to recover substantially all of the solvent in the diluted tailings component as a separate recovered solvent component and produce a solvent recovered tailings component containing water, solids, precipitated asphaltenes and residual bitumen and solvent; and thereafter subjecting the solvent recovered tailings component to gravity separation to separately produce an overflow stream of clarified heated water and an underflow stream mainly comprising solids, precipitated asphaltenes and water, the underflow stream comprising most of any residual solvent, solids, and precipitated asphaltenes in the solvent recovered tailings component."

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
